

Cuba Education Tours for students and teachers

Cuba Education Tours makes island travel easy.

We've sent thousands of teachers and students to Cuba on study abroad tours since 1997. We specialize in arts,

culture, history and nature programs. Our focus is people-to-people travel that connects students and teachers with their island peers.

Our project's mandate is fair trade travel to build ties of learning, friendship and understanding between Cubans and North Americans. We organize itineraries rich in academic and social content.

In Cuba, our project is sponsored by the Office of the Historian of Havana, and has the support of island ministries, schools, NGOs, and community and religious organizations.

Our Cuban guides are youthful worldly experts who love their country and know its history and society inside out. Sensitive to the needs of North American students they ensure your trip is safe, fun and rewarding.

With offices in Canada, Cuba and the States, we provide comprehensive travel arrangements. We are eager to help you witness Cuba on an affordable custom trip tailored to your curriculum requirements.
